Create Zen Doodles -Tons Of Zen Doodles For Creative Drawings: Tangle Tiles Step By Step Instructions

Synopsis

Want to Get Started Zen Doodling? This book has it all...For a limited time only, Create Doodles will be offered at \$4.97- a 25% discountDoodlers have been given a bad reputation for their *absentmindedness*™. After all, it's hard to fathom how sketching on a napkin, the edge of a table or on one's hand can in any way, shape or form be productive. Well, some may say that the productivity is in the explosion of creativity that one sees once a doodle is complete or even in the incompleteness but true originality of other doodles. However, this isn't all there is to doodling. Though with this book, you'll begin to learn how to release your imagination and create doodles that are worth keeping and perhaps unique and witty enough to claim their own frame and spot on your living room wall, there's a lot more to doodling than the eye can see. What's Inside the Book?Inside you'll find many creative doodles for hours of fun expression and designs to create unique drawings. Doodling is an art form and one that can lead to master pieces. We offer step by step instructions on how to draw zen doodles. Welcome to Tons of Zen DoodlesWelcome and take a peek inside. Grab a piece of paper and a pencil or pen and get ready to learn how to draw Zen Doodles. Everything you need is inside this book including plenty of patterns with easy to follow step by step instructions.

Customer Reviews

The designs are very, very basic and the book is extremely short. I downloaded it through the lending library so at least I didn't spend money on this. Not at all impressed. Spend your money elsewhere.

I (think) I have all of Mr. Ford's books and one of the things he does well is break things up into simple steps. Even though Zentangle is all about no mistakes, just opportunities for change and all that positive stuff, it can be intimidating for a new tangler to look at a beautifully executed and detailed drawing done by an experienced tangler and feel intimidated. This book is full of designs easy enough to encourage. My only gripe was that the price stated was about a dollar less than I was charged. Tangle On!

This has been one of my favorite coloring books by far I love the designs. Each page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The pages are perforated so they can be removed and used as journal pages or framed. I use markers and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some, Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens.

There are 10 sets of patterns in this book with 5 on each page. You get 50 in all BUT these patterns are so basic. You're better off searching the web. Also there's no table of contents.

Unless you get this for free as part of prime unlimited, you will feel ripped off. The meat of the book, the lessons consists of 10 pages of uninspiring patterns. You would be better served spending a few minutes out on Google.

Helpful for a beginner &. For the price.

Quick and easy to understand. Love the step by step examples and helpful hints. Perfect for an

ebook. Two more words required.

Worth the money. I could not find anything of this quality on the internet. Saved me hours. Keeps me busy and loads of fun:)
