The first Spanish volume in this series is not nearly as full of mistakes as the other volumes in the series. In fact, I suspect that the Spanish volume was the prototype on which the others were based. Even so, there are still some sloppy errors that need to be cleaned up. For example, one of the expressions highlighted in a story is "es de mucha de utilidad." But as the glossary itself shows, the correct expression is "es de mucha utilidad." In a later story the author writes "El robusto pirata y Carlos anduvieron varios pasos lejos de los demás. Frank y Susana disimulaban." There are several problems here. The verb that collocates with "paso" (step) in Spanish is "dar." In other words, dar un paso means to take a step. This is important because a learner is tempted to translate literally and say "tomar un paso" since we _take_steps in English. The second problem is the translation of "disimulaban" as "disguised" -- which makes no sense and is not what it means here. It means "pretended not to notice" or "acted as if nothing were wrong." Disimular is certainly a verb that needs glossing, but it should be glossed correctly! Inappropriate glossing is one of the main problems with this book. Instead of teaching the reader to recognize cognates, the book tends to gloss words whose meaning is obvious and often fails to gloss terms that are anything but clear. For example, I initially misunderstood the following sentence: Silvia era una mujer muy inteligente y pensaba siempre que había problemas, nunca solía ponerse demasiado nerviosa." I took this to mean "Silvia was a very intelligent woman and always thought that there were problems; she never got too nervous.
