Best Sellers Rank: #157,257 in Books (See Top 100 in Books) #147 in Books > Business & Money > Management & Leadership > Production & Operations #3516 in Books > Textbooks > Business & Finance

Customer Reviews

bought for school but what a fantastic read. This book contains tons of information that is sure to be useless by the time i graduate. With information changing so fast the techniques i learned will be great for dealing with people who are much older than me and ready to retire. Not to mention how angry they will feel having someone half their age tell them how to work harder and smarter. :)

I am currently taking an introduction to project management class, and this book has been very helpful thus far. It is well-written and easy to read and understand. However, I am not a fan of the binder ready version. There were no other ways to purchase the book at my time of purchase. I would have much preferred an actual bound book, as the pages included in this version are very thin and easily tear. Also, it would have been nice if an eBook version was included with the purchase of this book, seeing as though it cost over \$180.00.

Good information that should be delivered in a completely different method. The authors should present this information in less wordy format... Like others that commented, this book has merit, but damn do they take forever to get to a single point!

bought the ebook then the paper copy - at least the publisher could have included the rings with the book. Overpriced and pathetic for a book - didn't even cover the basics of the PMBOK well enough.

I am really giving this NO stars!!! I have never read a more boring book in my life. I can't even stay focused on what I'm reading because the sentences are so long and winding that I completely forget what the point is!!! I am writing this because I have to read it for a class that I love but hate the book. I sometimes want to cry because I must try to absorb this information to enable me to write papers and pass the class. I thought if I shared my feelings, I might stop screaming out loud out of frustration and boredom because I am scaring my family and my cat! Thank you for letting me vent!
