Ducati 2-Valve V-Twins: The Complete Story: The Complete Story

Synopsis

This text charts the development and production of the Ducati 2-Valve V-Twins. A companion volume to "Ducati 4-Valve V-Twins", it describes the rise of these machines and the personalities that helped develop them. Topics covered include: the background history of the company; the F1/F3, Paso, Monster, Super Sport and ST2 models; and full specifications and detailed part-by-part engineering.

Customer Reviews

This is the best book you can get on the subject of 2 valve Ducatis, which include the Monsters and Supersports. It includes a great history of Ducati, as owned by the Italian government, Cagiva, and a Texas corporate group. Great technical information, a couple of fair diagrams and drawings, but lots of pictures. I dont know if it warrants the hefty price, but a good read nonetheless.

Very good and great book for 2 valves books.
