Language: English

ASIN: B019FVSBQ4

Best Sellers Rank: #64 inÂ Books > Audible Audiobooks > Arts & Entertainment > Photography #224 inÂ Books > Audible Audiobooks > Arts & Entertainment > Art   #1602 inÂ Books > Arts & Photography > Other Media > Film & Video

Customer Reviews

The title says "Drone" , the cover picture is a quadcopter. After purchasing and reading found no information about quadcopters or drones but only about helicopters and even that info was very elementary but factual. Very disappointed there wasn't any info about buying, flying and maintaining quadcopter drones.

I don't review things as often as I should, but if I can save one person from spending money on this crappy "book" (actually it's more of a pamflet), I will try.Let's put it this way, just google search "drone", click on ANY search result, and you'll likely learn a butt-ton more than what is covered in this coffe table coaster of a book! I wonder if I can return it? Hmm.

Was a little to basic for me.
