## Customer Reviews

To avoid having my grandkids just blow into their harmonica's, I knew I had to purchase a training tool. Since they can play the piano, they knew fundamentals of music but nothing about the harmonica. I'm pleased with this music book. It has a sturdy cover and the pages are sturdy so can take abuse from usage. So far this book is doing what it's supposed to do. My grandkids are working thru it and actually playing some real songs.

This is a good book, very informative and all; however there is much more to learn about harmonica than as displayed. It is a good piece of musical equipment, as well as cheap. I would definitely recommend this book to anyone who is a beginner and looking to get better.

Excellent layout for beginners. Easy to follow with photos, diagrams, descriptions & formal music theory & notation- good for student learning & retention, similar look & feel as Book 1.

I look forward to using this book and CD. With 88 songs for lessons, it is sure to be a worthwhile purchase.

Very good and informative. Cheers.
