Customer Reviews

This is a triple pack that contains three wonderful and powerful books that will help you turn your life around. The pack contains a book that talks about Psychic abilities and how to improve your psychic ability. A book that teaches you how to develop and master the psychic abilities and mastering it. There is also Wicca book for beginners. The book teaches you about Wicca and everything about

Wicca. It teaches you about spells and enchantments and I really love the book. The author has done a great job by compiling this pack for the benefit of all.

I've had the pleasure of attending one of his events and Moon and his wife are honest and kind, they genuinely want to share information that will help you. What happens at these events is the information he is sharing with you makes a lot of sense, at least it did for me. Psychic is one of the mysterious things for me plus the book involved the opening of the third eye. It was really a thrilling book and an exciting way to learn.

It was a bundle offer for me. I had knowledge about Third Eye and Wicca before but I think to better perform for Third Eye and Wicca we have to develop our Psychic power first. All those things at a time here I'm really happy to have this book. I found this book very light and it's introduced all the important things step by step. Well developed.

This book helps to develop psychic and gain supernatural capabilities of the mind. I especially liked the section about how to open your Third Eye and also a section about spells. The book is well written and I felt like the author is an expert in this topic. This book was both interesting and useful for me.

Each short book packs a crazy amount of information on how to awaken your third eye, which crystals to buy in order to bring out your chakra, how to bring out your hidden psychic powers. I found this bundle extremely useful and was able to uncover some of my inner psychic abilities. Overall great read.

I hope this book will help you to decide if the Wiccan religion is the religion for you, not only that, but I hope that was able to give you some new information that you may not have known before when it comes to the Wiccan religion. Good book to add knowledge.

There has been a lot of views on psychic powers and other Wiccan theories and I was always skeptical. When I saw this book I knew it was my chance to touch base on this concept and I am glad I got the package. Psychic development as the author says needs mental concentration and commitment. I thought it was some myth but clearly I was wrong.

For me, the ESP is a very interesting and unusual lesson. Watching the people who possess supernatural powers there is only one, the desire to learn how they do it. I recommend reading the book that everyone can open the third eye.
