Customer Reviews

Many of the copywriting greats cite this book as one of maybe three foundational, wellspring, headwaters books for the entire industry of direct mail, and probably direct response marketing itself. I have heard Dan Kennedy talk endlessly about him. Gary Halbert puts this book in the first three of his recommended reading (and hand-copying) for aspiring copywriters, and none other than Yanik Silver has put a review of this book on this page. (If you don't know who Yanik Silver is, look him up. He's one of the most successful direct response copywriters working today.) So what should you expect when reading this book? Gary Halbert makes the point repeatedly, in different ways and places, that if your message is true, and good, and contains real value, then you don't need to obsess about the 'quality' of your medium to convey that message. He says essentially "If some guy hands you a crumpled up note that he pulled out of his pocket, and on it it says 'Your wife just gave birth to triplets', you're not going to dismiss this because it came on a crumpled up piece of paper." This point is worth bearing in mind when you order and read this book. The message itself is

unparalleled, still accurate after almost 100 years, even though few people are probably selling rain coats via printed sales letters any more. Everything important is in here, and anyone who wants to call themselves a professional copywriter (or in-print salesman to quote Halbert again) should read, and re-read, and then re-read this book. Now, about the editing and typos. The other reviewers are right - they're everywhere and something distractingly so.
