Customer Reviews

I got this book based on it's description and the fact that I have some erotica written by the same author. However I learned nothing from this book that I didn't already learn from my own trial and error. This MIGHT be an okay book if you just do it missionary style and want to add some flair to your sex life. One suggestion in the book was to masturbate....I learned that years ago. Everything in it just a basic suggestion and doesn't go into detail. You could learn all the content in this book, plus more, just by searching [...]

The Ultimate Guide is no understatement. This book covers everything from general descriptions of common kinks, to the specifics of negotiating with sex workers. There is something for everyone in this book, including some saucy scenes to get the blood boiling. I listened to the audio version of this

book and I found Lia Langola to be an excellent narrator. She managed to have both a serious and playful demeanor, perfect for this type of work. She sounded right at home reading this book. Excellent book I would recommend to any consenting adult. **I received a copy of this book in exchange for an honest review.**

I feel the book being quite informative and interesting as an reference tool for married like couples... to bring back the spice that is often missing as the years of long term relationships sometimes meet boredom.
