## Customer Reviews

I bought this book so I could serenade my friend's 1-year-old with "Godspeed (Sweet Dreams)" following his baptism. The sheet music is really close to the recording, although my virtuoso guitarist friend found a few smaller chords that were on the CD but not on the page. Another friend played the viola part on her cello, which worked well. Using this book as our guide for learning the piece was extraordinarily helpful. And, to top it off, the 1-year-old was attentive the whole time... quite a blessed day.

Warning: The arrangements in this book are NOT good. The quality of the arrangements was suprisingly disappointing. I would not recommend this book to anyone who is looking for anything

more than the chords for these songs (some of which are questionable).
