Customer Reviews

Nice short classic songs. Level is for a little over beginners. My son has been playing for less than a year and he has finished the book already. It has duets to play along with the teacher, which is good.

I started learning piano seven months ago. It has been a delight to play these classical tunes. They are nicely put together and not that difficult to learn. Each one might take a week or so to learn to play well with some instruction. Others are easy to learn without any instruction. I highly recommend this book.

I have only had the book a few weeks but it seems like a very competent book. It is at the level my somewhat beginner student need. It is well put together and makes classical music more fun for the student.

I teach piano with the Faber & Faber series for my beginning piano students. The pedagogy is spot on. The extra books such as this ShowTime Classics give me the option to order all different styles of music. I can meet the needs and likes of all my students.

Good selection, enjoyable music. Always use Faber, along with Junior Hanon and various Fake Books. Feel it is up to date and covers things in a reasonable time frame.

The product arrived as advertised and there are good solid classics used in the book. I will use it with many students.
