Customer Reviews

These days it seems as if every guru is putting out a book. Most are glorified sales letters trying to attract you into their mastermind or seduce you into buying their \$1997 program. As a self-taught entrepreneur, I've bought a lot of these books hoping to get insight on how to grow my business. They promise to share a secret "formula" or "blueprint" on how to double my profits, skyrocket my business, and transform my life. Most don't deliver on that promise, so I read Ask with a healthy degree of skepticism. But when I started reading, I was immediately drawn into Ryan's story. He doesn't sugarcoat his journey. He's up front about the fact that his success took a lot of hard work and dedication and he shares his failures as transparently as he does his wins. His focus and discipline is, frankly, a little intimidating. I actually found myself worrying that if I wasn't willing to dedicate six months of hyper focus to my business, I wouldn't be able to put his formula into action. Then I read part II. Part II lays out the Ask formula and then details the Survey Funnel Strategy step-by-step and here's where the magic happens. There are four pillars to the Survey

Funnel Strategy -- the "Deep Dive" Survey, the "Micro-Commitment Bucket" Survey, the "Do You Hate Me" Survey, and the "Pivot" survey. Levesque lays out each of these step-by-step as well as the email sequences you need to send to prepare your audiences for the surveys and follow up with them once they've given their answers. I have already put pieces of the formula into practice (imperfectly) and already seen some awesome results: I sent out a Deep Dive Survey and found out that my avatar was facing a huge challenge that I was aware of.

I never write reviews, but felt compelled to review this particular book. I believe that every business owner who is serious about staying on the cutting-edge of marketing should read this new book by Ryan Levesque (and take lots of notes)! To give some background -- I learned about Ryan several months ago at a conference called "Titans of Direct Response." I believe there were about 300 people attending and Ryan was just a guest. However, I noticed that all of the most influential people in the room were talking about him. After asking around, I learned why -- Ryan is only 32 years old, but he has accomplished more than most people will in their entire lifetime. Through his revolutionary Ask Formula (which he reveals in full detail in this book), he has helped people achieve unexpected & exponential results in their business. In a short number of years, this formula has helped Ryan and his clients generate 3 million leads and over 200,000 customers....resulting in over \$100 million dollars of revenue. I've personally met his clients, and they've shared with me that it's results like this that make them happy to pay thousands of dollars for just an hour of his time. Now as one of Ryan's students in his Next Level Mastermind Facebook group and ELITE program, I've had the opportunity learn this formula and apply it to my own business. I have to admit I was a little skeptical at first...Ryan's approach is super analytical and almost scientific. I wasn't sure if it would work with my audience of heart-centered, female entrepreneurs. But then I sent his "Do You Hate Me" email to my email list (customizing it to my audience with a few tweaks).
