Customer Reviews

This is an important public domain collection of cowboy songs by folksong scholar and collector, John Lomax. I exchanged this particular Kindle edition for one that is much easier to use. This edition is not user friendly because it has links to only three of the approx. 150 songs; one must search for songs by tediously turning pages. Two Kindle editions are available (one free) that have direct links to every song in the table of contents. If this edition were the only one available, it would be a good buy.
