Was a gift for a friend and beautiful although I wish it were packed different. I would suggest cardboard outside the book since it's not a hardcover as some of the pages got bent during shipping. Will have to apologize while giving the gift. None the less, beautiful book.

I am a songwriter and I needed the prefect book to write my lyrics in instead of just a plain old notebook and I do not use the computer anymore since about 300 of my song got deleted. The reason why I love this book is because it has tons of room for your song lyrics per song and has the inspiration and song title. I also enjoy how it has to write the music to the lyric which is hard to find around where I live. My parents surprised me with this for an early Christmas gift and I cannot wait to get started in it.

Bought this book for my 13 year old niece, who is very hard to please (like most teens nowadays) and she loved it. She especially loves that there's a section for the inspiration for the song. This will be a great book to look back at when she's older.

Nice quality book. I just starting writing lryics so it's a fun note book and easy to follow.
