## Customer Reviews

Christian Marclay is one of the most original and vital of artist/musicians active in the late 20th Century and up to this minute (2011 and beyond). His work explores the connections between visual and audio arts, and how they inform and transform each other. His work is unlike anything anyone has ever conceived or imagined, and it brings both visuals and sound together in ways that expand our awareness and imagination of both. This book ably documents his work, giving us insights into his working concepts and methods. A highly entertaining read, and a vastly informative addition to any art library.
